Supplying professional catering equipment for nearly 50 years

ISSUE 15

Maidaid® Product Guide | Issue 15

Supplying professional catering equipment for nearly 50 years

Maidaid Halcyon® has achieved the impressive milestone of servicing the professional catering industry by supplying quality and cost effective products for nearly fifty years.

The wealth of experience gained over the years has established the Maidaid® range as leaders within the industry. Our machines have a long standing reputation for durability and reliability.

Maidaid Halcyon® products are constructed from the highest quality materials to ensure many years of commercial service. We produce a tough machine to do a tough job. Whether you want simple reliability or the very latest innovations in micro-processing, there is a Maidaid® machine for you.

What is more, we actually listen to our distributors to help us provide what is, undoubtedly, the best service in the business.

That's why, in this Product Guide you will find every product is shown, together with its price, dimensions and relevant ancillary products.

You can also request the brochure in PDF format.

It has never been easier to select and order your Maidaid® equipment.

For all dish and glasswasher warranty enquiries please email service@crystaltech.co.uk

For all ice machine warranty enquiries please email service@maidaid-halcyon.co.uk

Tel: 0345 130 8070

Installation charges

● Undercounter glass or dishwasher	£250
● Hood / pass through dishwasher	£385
● Ice machine / Free standing	£340
● Ice machine modular	£POA
● Utensil, rack & flight machines	£POA
● Site survey prior to installation	£150
● Commissioning – see page 4	£135

The above installation prices are for positioning and connection to all services within 1 metre, during normal working hours and are based on a clear site with unhindered access on the ground floor. Any minor modifications required to enable installation will be charged at cost.

Should the above not be available a **full site survey would be recommended** prior to installation.

Please note: An aborted install charge will result if the installation site has inappropriate provision of suitable service conditions or is unable to accept installation for any other reason that is not notified to us at least 24 business hours prior to the scheduled installation.

Ancillary items if fitted at time of installation

● Fit manual water softener	£75
● Fit hot or cold automatic water softener	£130
● To fit new or re-fit existing tabling (excluding any alterations)	£130
● Fit Ice machine independent drain pump	£70

Retro drain pump kits available on selected models – Price on application.

Ancillary pricing

Ancillary prices are correct at the point of print, but may vary, please contact our sales team for up to date pricing.

General conditions

Delivery, collection & disposal

Machine prices in this guide include free next working day delivery to mainland UK, excluding Rack/Flight, Pot/Utensil Washers and Modular Icemakers. Deliveries to certain destinations may have extended delivery period.

Delivery prices are for deliveries within 3 months of order. Orders delivered after 3 months will be subject to any current prices at time of delivery.

Prices for special delivery times or other destinations and excluded items delivery cost on request.

Standard delivery is limited to door step delivery only.

A collection & disposal service is available for UK mainland only. The cost for this is £95 for Undercounter machines and £125 for Pass Through models, subject to the machine being boxed, on a pallet and left in an easy to access area – this excludes Rack/Flight, Pot/Utensil washers & Modular ice makers which are subject to quotation.

Water treatment

To achieve good warewashing results water treatment is essential. It will help prevent calcium scaling of internal components and reduce detergent consumption. If water hardness exceeds 7° Clark (100 ppm), a water softener is recommended on all dish and glass washers, unless already built into the machine. Icemakers also suffer from scaling in hard water areas and in these cases a suitable replaceable water filter system must be used.

Warranty conditions

Warranty terms vary from one to three years and are stated throughout this guide, if not specifically referred to they are for 12 months. For warranty to remain valid, installation, commissioning and end user training must be completed per instructions supplied and within the specification of equipment; to fit suitable water treatment equipment in areas of hard water; to use recommended chemicals; and to operate the equipment in accordance with user instructions, which includes thoroughly cleaning equipment after use. For full warranty details please contact our sales office.

VAT

All prices are subject to VAT at the current rate applicable at date of dispatch.

To ensure customers achieve the best results from their new equipment, Maidaid Halcyon® respectfully request the notes below are read for guidance.

Getting the equipment set correctly for the environment in which it will be operated is vital. All products sold by Maidaid Halcyon® should not be considered as plug and play.

All warewashing machines will require chemical dosing to be set correctly. Machines cannot be supplied ready adjusted to cope with the different concentrations of chemicals and different water quality in order to deal efficiently with the variety of items they have to wash.

Early staff training is highly recommended to achieve maximum productivity from staff and equipment.

Please ensure that you have ordered sufficient product racks to avoid problems in implementing the new equipment. Contact Maidaid Halcyon® to ensure you are selecting the correct package for your requirements.

Conditions and requirements

Delivery

With the exception of the models listed below all prices include delivery to UK mainland. Delivery is to doorstep only, if a different service is required we will be happy to quote for that service.

Equipment that may be subject to delivery charge: Rack/Flight, Pot/Utensil Washers and Modular Ice makers.

Installation

Maidaid Halcyon® is able to provide an installation service for all equipment in this Product Guide, please see page 3 or contact our office for current prices and conditions.

Commissioning

Machines must have been installed to a suitable standard and be ready to run. If an unsafe or unacceptable installation is found, commissioning will not be attempted and no credit of charges for commissioning will be made.

Training

Machines must be available as for commissioning and it must be assured that all staff to be trained are available at the prearranged time. Trainers cannot be asked to delay training beyond the agreed start time.

C Range | undercounter

- **2 year warranty**
- C405 WS with manual internal regeneration water softener & drain pump as standard
- Four button bright LED display with soft touch controls, twin traffic lights giving instant status updates & operational self-diagnostics
- Alarms menu with hi-level information retrieval
- Improved wash action from quick release parallel wash & rinse arm design
- Surface scrap tray filters supplied as standard
- Fitted drain pump version available on C352, C402, C452 & C502*
- Three standard cycle time options with further options available
- Cycle times can be tailored to site requirements
- Automatic self-cleaning at end of service
- Selectable energy saving mode
- Selectable thermostop ensures optimum rinse temperatures
- Patented dual flow wash pump (excluding C352) – reducing power consumption whilst retaining wash efficiency
- Moulded wash tank for easy cleaning (excluding C452)
- Moulded rack guide giving partial double skin (excluding C452)
- Accurate detergent & rinse aid peristaltic dosing pumps as standard
- Supplied with two open cup/glass racks & cutlery insert

Four button bright LED display with soft touch controls & twin traffic lights giving instant status updates

Technical

- Standard voltage 230V – single phase
- C502 can be supplied 3 phase – **please specify at time of order**
- Suitable for hot (max 50°C) or cold water supply, typically at 2 to 4 bar dynamic supply pressure, refer to specification sheets for individual requirements
- Wash temperature 60°C (adjustable)
- Rinse temperature 65°C (adjustable)
- Cycle times between 70 & 240 secs, dependent on model

* Drain pump cannot be retro fitted to C502.

Drain pump versions require a waste up stand for correct operation.

Restrictive waste connections should be avoided for all installations.

All machines supplied 13 amp will come with moulded plug and cable.

Machines configured for 13 amp supply or fitted to cold water supply will not be capable of running repeated short cycles. The cycle time will automatically be extended to allow recovery of correct operating temperatures.

Model	Rack size mm	Useable Height mm	Dimensions mm W x D x H	Cycle Options	Power kW	Amps Required	Price

Selling Ability

Training
Certificates

**award
winning
training**

To be able to effectively sell the right machine for the job, it is imperative to appreciate the many features of the entire Maidaid Halcyon range, and to understand the technology plus the various operating systems and tabling options.

**SELL THE
RIGHT
MACHINE
FOR THE
JOB**

Not to be missed topics include:

- Specify the right machine for the job
- How to site survey
- Problems: How to deal with them and how to avoid them in the first place
- Breaktanks, booster pumps and softeners
- Machine power requirements
- How to give technical support
- Add value and profit to your order opportunity
- Testing for water pressure and hardness
- Dealing effectively with a customer wanting a discount
- Available eco-benefits – water consumption down to as little as 1.8 litres per basket.

To find out the date of the next Warewashing Sales Training Day or reserve your place please call **0345 130 8070**

or email sales@maidaid-halcyon.co.uk

D Range | undercounter

D502

- **2 year warranty**
- Four button bright LED display with soft touch controls, twin traffic lights giving instant status updates & operational self-diagnostics
- Alarms menu with hi-level information retrieval
- Improved wash action from quick release parallel wash & rinse arm design
- Improved triple wash tank filtration system
- Drain pump fitted as standard
- Three standard cycle time options with a range of special cycles
- Cycle times can be tailored to site requirements
- Comprehensive automatic self-cleaning at end of service
- Selectable energy saving mode
- Selectable thermostop ensures optimum rinse temperatures
- Fully double skinned minimising both acoustic output and reduced heat-loss
- Patented dual flow wash pump with **soft start** – reducing power consumption whilst retaining wash efficiency
- Full door seal and door ajar facility
- Moulded wash tank for easy cleaning
- Moulded rack guide
- Surface scrap tray filters supplied as standard
- Accurate detergent & rinse aid peristaltic dosing pumps as standard
- Supplied with two open cup/glass racks & cutlery insert

Four button bright LED display with soft touch controls & twin traffic lights giving instant status updates

Technical

- Standard voltage 230V – single phase (can be supplied for 3 phase – **please specify at time of order**)
- Suitable for hot (max 50°C) or cold water supply, typically at 2 to 4 bar dynamic supply pressure, refer to specification sheets for individual requirements
- Wash temperature 60°C (adjustable)
- Rinse temperature 65°C (adjustable)
- Cycle times between 70 & 240 secs, dependent on model

Requires a waste up stand for correct operation.

Restrictive waste connections should be avoided for all installations.

All 500 basket machines supplied 13 amp will come with moulded plug and cable.

Machine configured for 13 amp supply or fitted to cold water supply will not be capable of running repeated short cycles. The cycle time will automatically be extended to allow for recovery of correct operating temperatures.

Model	Rack size mm	Useable Height mm	Dimensions mm W x D x H	Cycle Options	Power kW	Amps Required	Price
D502	500	260	600 x 600 x 710 [#]	3 Cycles	2.6/4.5/6.5	13/20/30 ^{##}	£4,640

[#] Height excludes adjustable feet which will add 10 to 20mm.

^{##} Machines will be supplied for 30 amp supply as standard. If supplied 13 amp machine will come fitted with moulded plug and cable.

20 amp machines will be supplied with original cable and without plug. Standard 13 amp UK 3 pin plugs will be **unsuitable** for cable supplied.

See page 17 for ancillary items.

Warewashing Engineers Appreciation Training Days

Award Winning Training
from **Maidaid Halcyon**

Our award winning **Technical Appreciation Training** day provides engineers with a comprehensive hands on experience to give them the confidence to safely install, maintain and repair Maidaid warewashing equipment.

Our tailored full day course gives engineers the opportunity to put the knowledge gained into practice when they deal with 'real life' scenarios.

Technical Appreciation Topics Covered:

- Installation
- Programming
- Operation
- Diagnostics
- Practical fault finding and programming
- Open Q&A session throughout the day

To find out the date of the next Warewashing Engineers Appreciation Training Day or reserve your place please call **0345 130 8070** or email **marketing@maidaid-halcyon.co.uk**

The Engine Shed,
Top Station Road, Brackley,

maidaid® basket grids

Our **basket grids** are ideally suited for establishments using lightweight plastic washwear.

Image shows
x1 Open Plastic Basket (Z972001 – List Price £21.50)
x2 Open Extenders and a Grid (each item sold separately)

Q402529B List Price **£22.85**

Grid prevents lightweight items from flipping over and collecting water during the wash cycle ensuring they are cleaned correctly ready for re use.

Compatible with 500 x 500mm open glass/cup basket.

Q902324B List Price **£15.95**

Add open extenders to cater for the tallest items in the basket. Each extender adds 40mm to total height.

Universal machine stand – black finish

Q902100B

Depth and width adjustable from 390 to 620mm. Maximum height 520mm, legs can be cut to reduce height. Adjustable feet for leveling

£91.99

Minirack

EVOLUTION RANGE

R3010 & R3020
Single tank models
(Illustration shown with
tabling – not included)

- **1 year warranty**
- Dryer module now available in 6 or 9kW
- Market leading rack machines, a proven design
- Capacity increased to 60 to 270 racks per hour, dependent on model
- Multiple module arrangement options including dryers, heat recovery and steam condenser
- Designed to minimise running costs
- Wash and rinse economisers as standard
- **As little as 1.2 litres of water used per rack**
- Water consumption up to 35% less per rack than a pass through model
- It is strongly recommended that any exit tabling is fitted with rollers to minimise load on rack drive motor and gearbox
- Can be ordered to run left to right or right to left
- **All models use standard 500mm racks with clearance height increased to 430mm**
- Internal design aids daily cleaning
- Full width doors for maximum access
- Breaktank fitted as standard
- Scrap tray to prevent solids fouling wash water
- Supplied as gravity drain only
- Minirack's are not supplied with chemical dosing as standard
- Extraction is required above machines even if fitted with a heat recovery unit

R3030
Dual tank model
(Illustration shown
with dryer, tabling
and exit splash
guard – not included)

Technical

- All models 3 phase and neutral
- Suitable for hot (max 50°C) or cold water supply at 1.5 to 4 bar, dynamic supply pressure

Minirack Evolution models.

Models have improved capacity, greater energy efficiency and reduced water consumption. A true evolution in design, taking the best and improving on it!

Minirack EVOLUTION RANGE

ANCILLARY PRICES are correct at the point of print, but may vary, please contact our sales team for up to date pricing

Minirack R3010 & R3020 – Single Tank Rack Conveyor

Minirack R3030 – Dual Tank Rack Conveyor

Minirack R3030 – Dual Tank Rack Conveyor (corner pre-wash)

Indicates direction of operation (dirty to clean). All Minirack Evolution models can be ordered running in either direction but must be specified at time of order. Only R3010 and R3020 without additional modules can be reversed once ordered.

Item	Description	Part No.	Price
Minirack dryer 6kW	Electric drying module. Adds 600mm to the length of the Minirack 1400 cubic metres/ hour, 550 watt fan, 6kW of heating power	915028	£6,760
Minirack dryer 9kW	Electric drying module. Adds 600mm to the length of the Minirack 1400 cubic metres/ hour, 550 watt fan, 9kW of heating power	915128	£7,510
Minirack heat recovery and steam condenser	For cold water feed machines only. Electric fan, 180 watt. 700 cubic metres an hour. No increase to length of machine. Reduces steam released into the environment. Converts potentially wasted energy into 5kW of power to pre-heat incoming water and reduces the power required to run a cold fill machine	915030	£5,650
Minirack corner dryer 6kW	Electric corner dryer module – Allows integrated dryer for the tightest corner and U shaped installations. Adds 840mm to the length of the Minirack. 1400 cubic metres/ hour, 550 watt fan, 6kW of heating power	915028C	£13,670
Minirack corner dryer 9kW	Electric corner dryer module – Allows integrated dryer for the tightest corner and U shaped installations. Adds 840mm to the length of the Minirack. 1400 cubic metres/ hour, 550 watt fan, 9kW of heating power	915128C	£14,210
Minirack corner prewash	Corner prewash module – Allows integrated prewash for the tightest corner and U shaped installations	R3100	£3,600
Minirack exhaust fan	Exhaust fan 200 watts, 700 cubic metres/hour. Port 250mm diameter, adds 210mm to machine height	R3	£1,780

- Tables including sinks have **single** ¾" hole for **monoblock** spray arm and 1½" waste
- All sinks are 500mm wide x 400mm front to back x 250mm deep
- All tables with splashback are 745mm deep

RX Evo & Pro Rack Conveyors

RX PRO 326

- The RX Evo and Pro ranges have evolved from the tried and tested AX range introducing improved efficiency and reliability
- Offers a model to suit all volume warewashing requirements that can be tailored to your specification
- Models are based on modules which include: prewash, single or double main wash, double or triple rinse
- Three drying module options
- Two heat recovery modules options
- Other options include: heat pump, steam condenser, corner inlet and corner dryers
- The range offers the capacity to wash from 83 to 400 racks per hour

Please note: Rack conveyors are not supplied with rinse aid or detergent dosing as standard, details available on request.

Speak to your Area Sales Manager for a free site survey and quotation relating to your precise site requirements.

RX Evo Rack Conveyors

The RX Evo range now includes 4 base models and one with corner pre-wash with between them the capacity to wash from 83 to 238 racks per hour.

With the option for a full range of additional modules offering corner pre-wash, dryers both inline and corner options, steam x and heat recovery, allow tailor-made solutions.

The RX Evo range is available with traditional electromechanical controls and display fascia or LED control fascia.

RX EVO 184

The RX Evo rack range

Model	Racks/ Hour	Modules
RX 104	83/107	W + RR
RX 144	92/143	SP + W + RR
RX 184	116/190	MP + W + RR
RX 184LC	116/190	CP + W + RR
RX 244	134/238	LP + W + RR

SP = Shelf module pre-wash

- 1 Prewash
- 2 Power wash
- 3 Power rinse
- 4 Fresh rinse
- 5 Dryer

Due to the ability to tailor the RX Evo range to your requirements please ask your area sales manager to carry out a site survey to ensure the selection of the best arrangement and options and then to provide a site specific quote.

RX Pro Rack Conveyors

The RX Pro range now introduces 5 base models and two with corner pre-wash with between them the capacity to wash from 100 to 400 racks per hour.

The RX Pro range adds the features of multiple rack operating speeds with a comprehensive soft touch LCD control screen, wash arms removable as an

assembly for improved cleaning access and reduced rinse water consumption. Five of the models have the option of an additional pre-wash module with removal draw strainer allowing in-service removal.

With the option for a full range of additional modules offering corner dryers both inline and corner options, steam condenser and heat recovery allow tailor-made solutions.

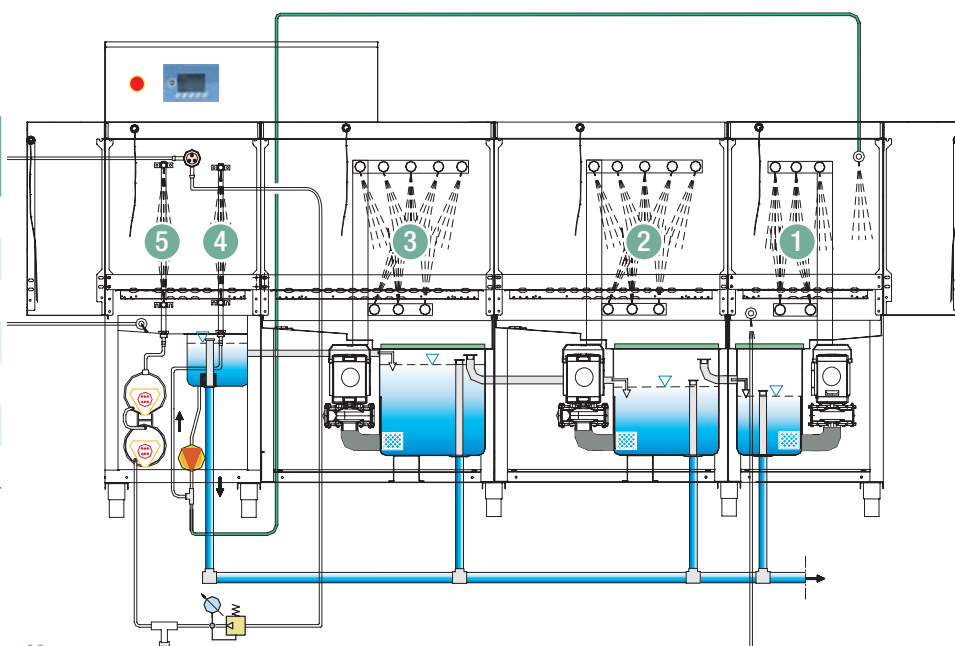

RX PRO 356

The RX Pro rack range

Model	Racks/ Hour	Modules
RX 246	100/250	W + 2R

HAL RTC24

The RX range have available a comprehensive range of other tabling options not shown here to suit individual site requirements

QX Flight Machines

Key

- | | | | | |
|--------------|----------------|--------------------------------|---------------|---------------|
| 1 Inlet zone | 3 Power wash | 5 Heat recovery with heat pump | 6 Stage dryer | 8 Shelf dryer |
| 2 Prewash | 4 Double rinse | 7 Turboblower | 9 Outlet zone | |

- For sites with the heaviest volume of items to wash, inline belt conveyor machines designed for continuous operation
- Extra wide belt of 710mm allows for maximum productivity
- Based on international standard DIN10510 the range offers the ability to wash from 2,400 to a mighty 10,000 plates an hour

- Eight basic arrangements, from 4.5 to 8.2 metres in length. All available for electrical or steam heating
- Additional modules included shelf dryers, stage dryers, neutral zones, heat recovery, heat pumps and steam condensers

Inserts for pans & trays are not included – see Additional Racks

Easy to use, soft touch keys, complement a large backlit polychromatic LCD display.

The control fascia display offers much more than soft touch buttons, the entire screen changes colour according to the machine status; this makes it easy to read and interpret even from a distance.

YELLOW = is Heating, but will still function

BLUE = in Cycle

GREEN = Ready to go

RED = in Alarm

- **1 year warranty**
- Heat Recovery variant available on all models
- **NEW – Drain pump kit available on all models** – please contact your area sales manager or our sales team for further information
- Four button control fascia with special programs button, operational self diagnostics and alarms menu
- Quick release wash/rinse combination arm design on the UT61e & UT61He
- Extensive range of accessories available including a range of trays, gastronorm holders & cutlery rack inserts
- Five standard cycle time options with further options available
- Selectable energy saving mode
- Selectable thermostop ensures optimum rinse temperature
- Precise detergent & rinse aid pumps as standard
- Vertically mounted patented dual flow self draining wash pump – reduces power consumption whilst retaining wash efficiency
- Pressed wash tank carefully designed for easy cleaning
- Internal pressure boosting pump for consistent pressure on rinse cycle
- Double wall split door for easy loading
- Stainless steel sliding rack on easy glide skids
- The sturdy, double-walled AISI 304 stainless steel construction, in addition to guaranteeing long-term reliability, reduces heat loss and noise
- Supplied with one s/s sliding open rack as standard

Technical

- **All models 3 phase and neutral**
- Suitable for hot (max 50°C) or cold water supply at 2 to 4 bar dynamic supply pressure
- Heat Recovery (HR) models cannot be used with hot water supply
- Wash tank temperature – 55°C (adjustable)
- Rinse boiler temperature – 85°C (adjustable)

Machines fitted to cold water supplies will not be capable of running repeated short cycles, the cycle time will automatically be extended to allow recovery of correct operating temperatures.

Water Softeners & Ancillaries

Manual Water Softener
Automatic Salt Regenerated Softener

Water Softeners & Ancillaries

ANCILLARY PRICES are correct at the point of print, but may vary, please contact our sales team for up to date pricing

Manual Water Softener

A manually salt regenerated scale control system, ideal for the protection of glass and dishwashers.

- Four sizes 8 to 20 litre capacity
- Robust construction and easy to install
- Simple to manually regenerate by flushing through a salt solution
- If the correct unit is used then regeneration should not be required more than once a week except in the hardest water areas
- Diameter of all models 185mm
- Softening capacity @ 120 PPM
- Maximum water supply temperature 50°C

Item	Variants	Capacity (Litres)	Height mm	Part No.	Price
Manual Water Softener	8 litre	1000	420	Q900008B	£101.98
	12 litre	1500	520	Q900012B	£120.14
	16 litre	2100	620	Q900016B	£132.60
	20 litre	3000	920	Q900020B	£155.40
For correct regeneration it is important that the correct type of salt is used:			2 kg Granular Salt	Q902440B	£4.65

Twin Tank Battery Operated Automatic Salt Regenerated Softener

- Twin tank battery operated automatic water softener
- Powered by a single long life 9V lithium battery (included) – Removes need for designated electrical socket
- Battery required to be replaced annually
- Softening capacity @ 300 PPM

Item	Variants	Capacity (Litres)	Dimensions mm W x D x H	Part No.	Price
Twin Tank Battery Operated Automatic Salt Regenerated Softener	Cold Water	1520	269 x 489 x 557	Q941311B	£820.41
	Cold Water	3040	269 x 489 x 788	Q941312B	£1114.29
For correct regeneration it is important that the correct type of salt is used:			25 kg Tablet Salt	Q902441B	£17.04

Automatic Salt Regenerated Softener

Automatically salt regenerated scale control, ideal for glass and dishwashers, suitable for establishments that cannot guarantee manual regeneration will be completed.

- Unit regeneration controlled by adjustable time switch, usually set to run when equipment is not required
- Single 13 amp electrical socket required
- Cold water units for 5°C to 50°C, hot water unit for 10°C to 70°C
- Only weekly salt top up required
- Softening capacity @ 300 PPM

Item	Variants	Capacity (Litres)	Dimensions mm W x D x H	Part No.	Price
Automatic Salt Regenerated Softener	Cold Water	1400	275 x 485 x 480	Q900100B	£671.08
	Cold Water	2300	275 x 485 x 555	Q900101B	£705.20
	Cold Water	3000	275 x 485 x 710	Q900102B	£760.54
	Hot Water	2595	315 x 510 x 685	Q900105B*	£740.94

For correct regeneration it is important that the correct type of salt is used: **25 kg Tablet Salt** **Q902441B** **£17.04**

CUBE 80-35DP

CUBE 110-60DP

CUBE 150-75DP

- **2 year warranty**
- Supplied with internally fitted drain pump as standard
- Strong door opening system. Door made in stainless steel AISI 304
- STIF: stainless steel fabrication. Solid structure supported in 4 steel columns. AISI 304 stainless steel body
- Environmentally friendly R290 gas which reduces energy consumption
- Smart front ventilation system
- "Never stop" motor pump, designed without seals to prevent deterioration
- Anti-scale spray system. The patented spray system with flexible jets avoids limescale deposits with small vibrations
- Cleaning switch – Aids general servicing and maintenance
- All panels can be disassembled separately which allows easy access from service and installation
- Electronic control that enhances the machine performance
- On/off lighted rocker switch / PCB mounted at the bottom
- Height adjustable legs from 105mm to 155mm
- All machines supplied with 13 amp moulded plug and cable
- Capable of operating in ambient temperatures of 10°C and 43°C
- Supply water temperature between 5°C and 38°C

For maximum production at high ambient temperatures most models are available to special order as water cooled versions.

Technical

- Voltage 230V – single phase – 13 amp
- All models supplied with UK 3 pin moulded plug
- Require water supply pressure between 1 and 6 bar
- Optimum ice production is at an ambient temperature of 21°C. Higher temperatures will dramatically reduce ice production

To produce ice of good quality all ice machines must be supplied with suitably softened and filtered water. Any filters and softeners must be of sufficient capacity and correctly maintained.

Model	Production Kgs per 24hrs	Cooling System	Standard Cube Size g	Bin Capacity Kgs	Dimensions mm W x D x H (inc. feet)	Drain Height (inc. feet) mm	Water Consumption (air cooled) Litres/H	Price

Icemakers | granular

GRANULAR 85-20

GRANULAR 160-64

See page 55 for bin options.

GRANULAR 200

- **2 year warranty**
- Granular 85-20 self contained model that produce dry granular ice
- Granular 160-64 & Granular 200 produce wet granular ice
- Granular 160-64 – head and base supplied separate and must be assembled during install
- Granular 200 requires separate bin
- Environmentally friendly R290 gas which reduces energy consumption
- Efficient evaporator without gasket and seals with lower energy consumption and high ice production
- Stainless steel auger with resilient coating to maximize lifespan and powerful speed reducer on top

- Granular 85-20 with smart front ventilation system, cleaning switch, adjustable feet, stainless steel door & fabrication. Solid structure supported in 4 steel columns which allows easy access for service and installation as all panels can be disassembled separately
- All models with AISI 304 stainless steel body
- Electromechanical control system
- On/Off lighted rocker switch
- All machines supplied with 13 amp moulded plug and cable
- Capable of operating in ambient temperatures of 10°C and 43°C
- Supply water temperature between 5°C and 38°C

For maximum production at high ambient temperatures most models are available to special order as water cooled versions.

Technical

- Voltage 230V – single phase – 13 amp

GRANULAR 200	211	Air Cooled	Granular	N/A	515 x 550 x 486	9.6	£4,960

- **2 year warranty**
- Produces pebble ice
- Environmentally friendly R290 gas which reduces energy consumption
- Strong door opening system, door made in stainless steel AISI 304
- Strong stainless steel fabrication. Solid structure supported in 4 steel columns which provides easy access for service and installation as all panels can be removed separately
- High evaporator efficiency, lower energy consumption and higher ice production

- Smart front ventilation system
- Stainless steel auger with resilient coating to maximise lifespan
- Electronic control – On/Off lighted rocker switch and auto diagnostics signalling operation status and alerts
- Height adjustable legs from 105mm to 155mm
- All machines supplied with 13 amp moulded plug and cable
- Capable of operating in ambient temperatures of 10°C and 43°C
- Supply water temperature between 5°C and 38°C

HALF DICE 220

HALF DICE 410

See page 55 for bin options.

- **2 year warranty**
- Both machines produce half dice 6 gram ice cubes
- Half dice 220 uses environmentally friendly R290 gas which reduces energy consumption
- Half dice 410 uses R452A refrigerant
- High resistance external frame as AISI 304 stainless steel which aids service installation and maintenance

- Highly efficient evaporator
- Smart water distributor that improves drop-off efficiency
- Smart electronic board with self-diagnostics
- Capable of operating in ambient temperatures of 10°C and 43°C
- Supply water temperature between 5°C and 38°C

For maximum production at high ambient temperatures most models are available to special order as water cooled versions.

Technical

- Half dice 220 – 230V supplied with 13 amp moulded plug and cable
- Half dice 410 – three phase 16 amp
- Requires water supply pressure between 1 and 6 bar
- Optimum ice production is at an ambient temperature of 21°C. Higher temperatures will dramatically reduce ice production

To produce ice of good quality all ice machines must be supplied with suitably softened and filtered water. Any filters and softeners must be of sufficient capacity and correctly maintained.

Model	Production Kgs per 24hrs	Cooling System	Standard Cube Size g	Dimensions mm W x D x H	Water Consumption (air cooled) Litres/H	Price
HALF DICE 220	207	Air Cooled	6	762 x 620 x 500	12	£4,640
HALF DICE 410	405	Air Cooled	6	762 x 620 x 760	17	£6,190

slim bin | Ice cube
modular
range

Don't forget
to order your
Storage Bin
– see page 53
for options.

SLIM132

SLIM192

SLIM195E

(Illustration shown with
storage bin MSB105 –
not included)

- 12 months warranty
- 560mm wide units for small spaces
- Soft touch control panel
- Standard cube 10 gram 22 x 22 x 24mm
- Slim195E hydrocarbon with zero environmental impact
- Half cube 6 gram and large cube 17 gram available to special order
- Vertical evaporation design
- Excellent service accessibility
- Works in ambient temperatures between 10°C and 40°C
- Supply water temperature between 5°C and 35°C

For maximum production at high ambient temperatures models SLIM132 & 192 are available to special order as water cooled versions at the same price.

All slim bin modular units will require an ice storage bin, see page 53.

Technical

- Voltage 230V – single phase
- Slim 132 – 13 amp
- Slim 192 & 195E – 16 amp
- 1 to 5 bar operating water pressure
- Optimum production is achieved at ambient and water supply temperatures of 21°C and 10°C
- Ambient and water supply temperature will affect ice production capacity

To produce ice of good quality all ice machines must be supplied with suitably softened and filtered water. Any filters and softeners must be of sufficient capacity and correctly maintained.

Model	Production Kgs per 24hrs	Dimensions mm W x D x H (inc. feet)	Drain Height mm	Water Consumption (air cooled) Litres/Hour	Water Consumption (water cooled) Litres/Hour	Gross Weight Kgs	Power kW (Max Amps)**	Price
SLIM132	143	560 x 620 x 575	43	6	61.3	65	1.64(13A)	£4,500
SLIM192	212	560 x 620 x 660	44	8.5	126	80	2.35(16A)	£5,100
SLIM195E	210	560 x 620 x 660	43	9.2	N/A	78	2.84(16A)	£5,360

Height of drain is for modular unit only, add height of bin for overall height.

When in ice production mode.

** During harvest cycle the unit draws a higher current, failure to fuse correctly may result in equipment failure.

See pages 56-57 for ancillary items.

Suitable for Maidaïd® SLIM production units only – see page 52.
(Illustration shows SLIM195E with storage bin MSB105 – both to order separately.)

- **12 months warranty**
- Two slim bins 560mm wide for small spaces
- One bin for larger capacity ice storage
- All MSB bins suitable for any Maidaïd® SLIM production unit
- High thermal efficiency ice storage bins fully stainless steel body construction
- Polyethylene lid with gasket seal, self-latching in open position for easy ice retrieval

Model	Storage capacity	Dimensions mm W x D x H (inc. legs)	Suitable production unit	Price
MSB105	129	560 x 845 x 1050	SLIM132, SLIM192, SLIM195E	£1,660
MSB155	168	560 x 865 x 1275	SLIM132, SLIM192, SLIM195E	£1,890
MB255	243	765 x 870 x 1275	SLIM132, SLIM192, SLIM195E	£2,220

CUBE 150

CUBE 350

CUBE 300 SLIM

See page 55 for bin options.

- **2 year warranty**
- CUBE 300 SLIM also available to order in Half Dice 6 gram cubes
- CUBE 150 and CUBE 300 SLIM use environmentally friendly R290 gas which reduces energy consumption
- CUBE 150 and CUBE 350 use an anti-scale patented spray system with flexible jets which avoids deposits with small vibrations
- CUBE 350 uses R452A refrigerant
- High resistance external frame as AISI 304 stainless steel which aids service installation and maintenance

- Highly efficient evaporator
- Smart water distributor that improves drop-off efficiency
- Smart electronic board with self-diagnostics
- Capable of operating in ambient temperatures of 10°C and 43°C
- Supply water temperature between 5°C and 38°C

For maximum production at high ambient temperatures most models are available to special order as water cooled versions.

Technical

- CUBE 150 & CUBE 300 SLIM 230V single phase 13 amp supplied with moulded plug and cable
- CUBE 350 – 230V single phase 25 amp
- Require water supply pressure between 1 and 6 bar
- Optimum ice production is at an ambient temperature of 21°C. Higher temperatures will dramatically reduce ice production

To produce ice of good quality all ice machines must be supplied with suitably softened and filtered water. Any filters and softeners must be of sufficient capacity and correctly maintained.

To achieve the best result from any Maidaïd® icemaker it is important that the machine is supplied with high quality water. To achieve this it is strongly advised that from installation the machine is installed with a correct filter and softener as required. The grid below provides a guide to Maidaïd's recommendations, due to the variations in water hardness and mineral contents the suggested filters and softeners cannot be guaranteed to provide the correct level of protection required.

All kits include – connection head, filter cartridges, and food safe two connection hoses.

Quality Control

Quality of product and after-sales service is based on the operation of systems to the internationally recognised quality standards BS EN ISO 9001 and BS EN ISO 14001. However, above all else, quality of service results from the abilities, motivation and teamwork of people within the company.
