# CAST IRON COOKWARE

Batterie de cuisine en fonte / Utensilios de Cocina de Hierro Fundido

Cast Iron, some would say, is the very best cookware you can buy - with superb heat retention and spread. As used by most top TV chefs. For use on any form of hob, including induction, or in the oven, at home or commercially. A beautiful alternative for buffets; more and more often used on heated buffet tables as an alternative to GN containers. Black or Red with stainless steel knobs.

*Populaire ces dernières années par son utilisation croissante par les chefs de télévision et son utilisation accrue sur les tables de buffet chauffées à la place des plats gastros. Elle est idéale pour une utilisation sur n'importe quelle forme de plaque de cuisson, y compris l'induction et le four car elle a une excellente rétention et diffusion de la chaleur.*

*Se han hecho populares en los últimos años debido a su uso cada vez mayor por parte de los chefs que aparecen en televisión y se han empezado a usar con mayor frecuencia en las mesas de buffets calientes sustituyendo a las sartenes de gastronomía. Con una excelente retención y distribución del calor, es ideal para usar en cualquier tipo de cocina, incluida la de inducción o incluso en el horno.*
